Subject: For the attention of Sandra Zamenzadeh

Proposed Toll Fare Increases.

Dear Sandra

I wish to object to the current proposals . My objection is based on the impact that higher toll charges will have on persons in the community of Studland who are on fixed incomes. The value of these fixed incomes will fall if toll fares increase.

Second, there is a move in the distribution of income associated with these proposals. In short incomes will move from wage and salary earners to the owners of capital.

The above views are also recognised by the residents of the locality who like me make use of the valuable services of the ferry and wish to see it continue to serve the needs of the local community for which it was set up for.

Yours sincerely

Peter Bowyer
